

Declaration of Interest  
By members of the STIBOR Oversight Committee

## Conflict of interest

A conflict of interest may be defined as ‘a situation where an individual, or the organisation they represent or has an interest in, has a direct or indirect competing interest with SFBF’s activities. This competing interest may result in the individual being able to benefit from the situation or it may prevent SFBF from being able to achieve a result in its best interest, or both.

A conflict of interest may arise where an individual is a party to a contract with SFBF or has an interest in an enterprise or is related to a person who is party to such a contract; or where an individual receives payment by SFBF for services rendered to SFBF other than reimbursement for reasonable out-of-pocket expenses measured according to SFBF’s policies on expense reimbursement. For SFBF a conflict of interest also includes conduct which is not in keeping with its core values and principles. In particular, the principles of neutrality and impartiality cannot be comprised.

This declaration is to be made by members of the Oversight Committee (“OC”).

Conflict of interest includes, but is not limited to the following situations

- Where the undersigned is directly, or indirectly, affiliated with panel banks and could be perceived to influence SFBF or the provision of STIBOR for the benefit of their own panel bank or of the panel banks as a group.
- Where the undersigned’s private affairs or personal financial interests’ conflict with their work duties, responsibilities, and obligations, or result in a public perception that a conflict exists. For example, an employee who is directly or indirectly affiliated with (a) panel bank(s) could be perceived to have an interest not to challenge submissions as they might benefit financially linked to the rate(s) the STIBOR.
- Where the undersigned’s private affairs or personal financial interests’ conflict with their work duties, responsibilities, and obligations, where there may be a potential benefit to that individual through their involvement with SFBF which could impair the individual’s ability to act in the best interest of SFBF.
- Where the undersigned who is directly, or indirectly, affiliated with a panel bank, may gain access to confidential market information, that could potentially benefit their own organization if disclosed.
